

# Scrip Tips

(2020-2021)

1. There are two ways to order Scrip cards - through the RaiseRight app or on the website [www.shopwithscrip.com](http://www.shopwithscrip.com). The platforms are interchangeable and whatever you order on one will show up on the other. Your username and password are the same, too. The RaiseRight app is perfect for on-the-go ordering during a dinner out or trip to the store. To make a purchase, the cashier can just scan your phone or type in the e-card number. In addition to ordering and purchasing, the shopwithscrip.com website is also where you will be able to run reports to view your earnings by clicking on **Dashboard>Family Functions>Reports**.
2. Scrip runs several promotions throughout the year - different retailers have even bigger rebates than usual! Be sure to watch your email from Scrip, read the PTO's Weekly Newsletter, and check the ShopWithScrip Fag Group FB page as well as the DMS PTO Facebook page to know when these deals are happening. When logged into your Scrip account on the RaiseRight app, "Today's Bonuses" are shown on the home page. On the shopwithscrip.com website, you can find current specials by selecting **Shop** then the **Specials** tab under the Shop With Scrip logo.
3. At Kohl's, you can use your Kohl's credit card to make your purchases (thereby getting their coupon or special offer) and then pay your credit card bill with your Kohl's Scrip cards right at the register! Talk about double dipping!!
4. You can select the '**This is a gift**' button when purchasing an eGift Card, enter the recipient's email, and send a gift to someone electronically. You can also use this feature to make it easier for out-of-town friends and relatives to buy Scrip through your account so you earn the rebate. Simply order the eGift Card they want, select the '**This is a gift**' button so the eCard goes to them, and then have them reimburse you.
