

Scrip Tips

1. You can download the “My Scrip Wallet” mobile website onto your smartphone

(www.myscripwallet.com) and it will work just like an app. In Safari, push this button  and select “Add to Home Screen”. On Google Chrome, open the options menu (three vertical dots) then select Add to Home Screen. My Scrip Wallet keeps track of all of your ScripNow e-cards, including most card balances. You can also place ScripNow, Reload, and ReloadNow orders on My Scrip Wallet. It’s perfect for on-the-go ordering during an unexpected dinner out or trip to the store! To make a purchase, the cashier can just scan your phone or type in the e-card number.

2. Scrip runs several promotions throughout the year - different retailers have even bigger rebates than usual! Be sure to watch your email from Scrip, read the PTO’s Weekly Newsletter, and check the DMS PTO Facebook page to know when these deals are happening. When logged into your Scrip account on a computer, you can find current specials by selecting **Shop** then the **Specials** tab under the Shop With Scrip logo.
3. At Kohl’s, you can use your Kohl’s credit card to make your purchases (thereby getting their coupon or special offer) and then pay your credit card bill with your Kohl’s Scrip cards right at the register! Talk about double dipping!!
4. To make it easier for out-of-town friends and relatives to buy Scrip through your account, select ScripNow whenever possible and then click on the '**This is a gift**' button. You will then enter the recipient's email address, and the ScripNow will automatically show up in their email. They get their Scrip money, and you get the rebate into your child’s DMS Trip Account!
